The University of Tokyo is the leading institution of higher education in Japan, with its faculties and graduate schools covering the breadth of academic disciplines. Established in 1877, the University of Tokyo is the oldest national university in Japan, and has contributed to the development of the modern state of Japan. The University has taken the lead in social innovation as Japan’s top comprehensive research university, and aims to provide students with rich opportunities for intellectual development.
Welcome to the University of Tokyo New York Office in the heart of Manhattan

As a major academic and global institution, the University of Tokyo’s mission is to contribute to society and people worldwide through pioneering research and education.

In 2015, the University of Tokyo New York Office (UTokyoNY) was established to facilitate international collaboration and academic exchange, mainly in the fields of engineering and medical science.

Today, the University aims to enhance collaboration among industry, academia and the public and private sectors, not only in the fields mentioned above but also in other academic disciplines. We hope to achieve this by establishing UTokyoNY as a strong base in North America to promote the University’s academic activities.

Please visit our website for more information about UTokyoNY. You can also help support our activities by making a donation. Thank you for your attention.
