

## RE : THINKING THE ROBOT

Robotic Futures: Fresh Perspectives

**Creative Workshop, March 24<sup>th</sup> - 25<sup>th</sup>**Panel Discussion, March 22<sup>nd</sup>

We are on the cusp of the robotics revolution: new technologies promise a societal shift where robots will become part of our daily lives.

The UTokyo New York office invites you to rethink the robot. Join us for a design-thinking workshop and an inspirational evening talk with experts from the Institute of Industrial Science (IIS) at the University of Tokyo.

- Weekend Workshop: March 24<sup>th</sup> - 25<sup>th</sup>
- Evening Talk: March 22<sup>nd</sup>

Be inspired by cutting-edge research from the University of Tokyo, including biomimetic machine mechanics, "BioLikeness" of robots, fundamental vision theories and breakthroughs in high speed robotics.

Experience design-thinking methods and processes for ideation and rough prototyping. Rethink the robot: its function, appearance, interaction, and role in society. Imagine the unimaginable.
